

Sentral Parent Portal Access

The Sentral Parent Portal is a website and App where parents can gain access to view important information from the school, regarding their child.

Some of the features of the parent portal include:

- Accessing their child's timetable
- View newsletters
- Download published reports.
- Receive notifications.
- Book Parent and Teacher Interviews
- View attendance records
- Notify absences and respond to absences.

To begin using the Parent Portal, you are required to complete three steps. You will need a valid personal email address and each child's access key provided by the school. The valid email address will enable the school to communicate with you regarding any important information electronically.

Please follow the link to create an account on the website.
